Activities, Events and Collaborations

- **CryptoParty Madrid** Madrid, SP
Coordinator and Speaker *Since 2017*
 - **CryptoParty** is a free and open event for everyone, especially for those without previous knowledge. Cryptoparty is a decentralized movement with events around the world. The purpose of the event is making people acquiring new knowledges and having information about what concerns their own digital space. This may include encrypted communications, avoiding being tracked and surveillanced during web searches, and general security tips regarding computers and mobile terminals.
(<https://cryptoparty.ucm.es/>)
 - Even more to participating in the organization of the event, I make a presentation on cyber-security on mobile devices.

- **CoreWar UCM** Madrid, SP
Staff and Participant *Since 2017*
 - **CoreWarUCM** is a championship of **virus programming** based on CoreWar, a programming game created in 1984.
This tournament includes everything from UCM students and faculty to external competitors.
(<https://corewar.ucm.es/>)
 - In 2018 the *IT department* of **ROCHE Pharmaceutical** participated and I got the **2nd place** competing against them and other student.

- **Gamers Party** Madrid, SP
Staff and Participant *Since 2017*
 - The Gamer's Party is a charity event, organized by students and professors of the Complutense University of Madrid, to raise food and money for the Food Bank of Madrid.
(<https://gamersparty.org/>)
