Activities, Events and Collaborations

CryptoParty Madrid Madrid, ES
Coordinator and Speaker *Since 2017*

- The ***CryptoParties*** is a free and open event for everyone, especially for those without previous knowledge that they have not previously attended.

  Cryptoparty is a decentralized movement with events around the globe. The goal of the event is to bring knowledge and information about the portion of your own digital space. This can include encrypted communications, avoid tracking and monitoring during web searches, and general safety tips regarding computers and mobile terminals.
  (https://cryptoparty.ucm.es/)

- In Addition to participating in the organization of the event, I lecture on cyber-security on mobile devices.

CoreWar UCM Madrid, ES
Organizer and Competitor *Since 2017*

- ***CoreWarUCM*** is a tournament of **virus programming** based on Core War, a programming game born in 1984. In This tournament participate from students and professors of the UCM, to external participants.
  (http://corewar.ucm.es/)

- In the 2018 edition (which involved the *pharmaceutical Computer Equipment **ROCHE***), I got the position of **Sub-Champion**.

Gamers Party Madrid, ES
Organizer and Participant *Since 2017*

- The Gamers Party is a charity event, organized by students and professors of the Complutense University of Madrid, to raise food and money for the Madrid Food Bank.
  (https://gamersparty.org/)
